## Key Product Features & Benefits

### eBox + Light Weight Caddy

The improved electronic control box, or eBox, makes it easy to operate the cleaner at the touch of a button. The ebox allows you to program the cleaner to run each day for up to 7 days when you go away on holiday. It indicates when the filter canister is full and it also allows you to activate the patented Lift System.

### Patented Vortex Vacuum Technology

Vortex technology provides powerful and constant cyclonic suction. This allows the Vortex-Pro Robotic Cleaner to capture large debris such as gum nuts, twigs and eucalyptus leaves while not losing suction power throughout the cleaning cycle.

### Large and super easy to clean filter canister

Never touch debris again thanks to the easy access and hygienic design of the filter canister. Clean and remove debris in a matter of minutes with minimum fuss.

### Plug & Play Simple Installation

Simply plug the power cord into a regular 240V wall socket and press START on the control box. The Zodiac VX50 4WD starts cleaning whilst you relax.

### Patented Lift System

Enjoy easier removal of the cleaner with 20% less effort.

### Certified to Australian safety standards
